

MERLIN EQUIPMENT PTE LTD

SCANIA TRUCK PARTS & COMPONENTS

Genuine & Quality Aftermarket Parts — Global Supply — Full Technical Support

Overview

Merlin Equipment Pte Ltd is a trusted global supplier of genuine and quality aftermarket Scania truck parts and components. Our comprehensive inventory spans the full Scania range — R, S, P, G, L, and XT series — and our team of Scania-trained specialists ensures precise parts identification and expert technical support on every order.

From high-performance long-haul prime movers to rugged construction and mining trucks, we supply the parts that keep Scania fleets operating at peak performance worldwide.

Parts Catalogue

Our Scania parts inventory covers all major component categories to OEM specification:

Engine Components

Scania DC, DT, and OC engine parts including cylinder heads, crankshafts, pistons, conrods, turbocharger units, gasket sets, timing gear components, and full engine overhaul kits.

Gearbox & Transmission

Opticruise automated gearbox components, manual gearbox parts, clutch assemblies, flywheel kits, propshaft assemblies, and complete drivetrain components.

Axles & Suspension

Front steering axles, rear drive axle assemblies, leaf spring packs, air suspension components, shock absorbers, wheel hubs, and wheel bearing assemblies.

Braking Systems

Disc and drum brake components, EBS modulators and actuators, brake chambers, wheel speed sensors, air compressors, moisture separators, and air dryer service kits.

Electrical & Control Systems

Engine control modules (ECMs), instrument clusters, pressure and temperature sensors, wiring harnesses, lighting systems, cab control panels, and telematics hardware.

Cooling & Thermal Management

Radiator cores, charge air coolers, viscous fan clutches, water pump assemblies, thermostats, coolant circuit hoses, and expansion tanks.

Fuel & Exhaust Systems

Unit injectors, high-pressure fuel pumps, fuel filters and housings, diesel particulate filter (DPF) components, SCR catalysts, AdBlue dosing units, and EGR components.

Cab & Exterior

Windscreens, body panels, bumpers, side mirrors, door mechanisms, sleeper cab accessories, interior trim, driver seats, and steering wheels.

Steering & Chassis

Hydraulic power steering pumps, steering gear assemblies, steering arms and tie rods, sub-frames, crossmembers, and chassis mounting hardware.

Scania Series Coverage

We supply and source parts for the complete Scania truck lineup — current models and legacy vehicles:

Model Series	
Scania R Series	Long-haul & heavy transport — DC13, DC16 (410–770 hp)
Scania S Series	Premium long-haul flagship — DC13, DC16 (410–770 hp)
Scania P Series	Urban & regional distribution — DC9, DC13 (250–500 hp)
Scania G Series	Versatile transport & construction — DC9, DC13 (280–500 hp)
Scania XT (Off-Road)	Construction & mining — DC9, DC13, DC16
Scania L Series	Urban logistics & municipal — DC9 (250–320 hp)

Why Choose Merlin Equipment

OEM & Quality Aftermarket Options

We offer both genuine OEM-specification Scania parts and proven quality aftermarket alternatives — enabling you to optimise cost without compromising on reliability or safety.

Worldwide Distribution

We ship to all major ports and delivery points globally. Our established freight partnerships ensure fast, reliable delivery regardless of your location.

Full Technical Support — Available 24/7

Our Scania-trained technical specialists provide complete support throughout the procurement process:

- Parts identification using VIN, chassis number, or vehicle build specification
- Fitment verification and installation guidance
- Diagnostic support and fault code interpretation
- Cross-referencing OEM part numbers to aftermarket equivalents
- Retrofit and upgrade component recommendations

Technical support is available 24 hours a day, 7 days a week — ensuring your operations are never delayed.

Fleet & Volume Pricing

Fleet operators and distributors benefit from volume pricing structures and customised supply agreements. We offer tailored solutions for high-volume procurement to maximise value and simplify supply chain management.

Rapid Parts Identification

Our team can locate hard-to-find and obsolete Scania parts using OEM cross-references, manufacturer databases, and our global supplier network — ensuring availability for all model years.
